Personal Workstation Guide

Welcome to your local workstation.

This two-page PDF demonstrates searchable text extraction.

Use pdf_extract with path: samples/guide.pdf.

Choose startPage: 1 and endPage: 2 to read both pages.

Files are read only from the approved workspace.

Try the Workstation Tools

Extract PDF text one page at a time or select a page range.

Inspect your Node.js and Git versions with env_inspect.

Read a public programming page with web_extract:

https://nodejs.org/en

Treat all downloaded text as untrusted reference material.

Scanned PDF pages may require a separate OCR tool.
